

Implementing Practical Project Portfolio Management

Course Description

This course is intended for those who wish to improve and formalize PfM in their organization. After reviewing the fundamentals of effective PfM, participants perform an assessment of their organization's current PfM practice, design a more effective PfM practice, and determine the steps needed to reach a higher level of PfM maturity. The ratio of exercise to lecture is very high with the result that participants actually begin the work of redesigning PfM in their environment. ***Implementing Practical Project Portfolio Management*** is exceptionally effective when conducted onsite with your key PfM players participating. Learning Objectives include understanding of the following:

- The promise of PfM
- Primary business processes of PfM
- Steps for improving the PfM process
- Role of the Executive Team in PfM
- Portfolio: Aligning projects to strategy
- The portfolio as a Business Value Delivery Engine
- Project prioritization
- Project categories
- Project authorization and funding
- Capacity planning
- The Master Projects Schedule
- Managing portfolio risk exposure
- Managing change in PfM
- Reporting on portfolio results
- Gaining organizational adoption of a new PfM process

Who should attend

This course will be of great value to Portfolio Managers; anyone who uses projects to execute Business Strategy; anyone who is planning on implementing portfolio management software; CEO, CFO, CIO, other Senior Executives; PMO Directors; Functional Managers and Executives with project responsibility.

Prerequisites

This course does not require any special knowledge of project portfolio management concepts, although a basic understanding is helpful for some of the exercises.

Course Information

- **Course I.D. Number:** 1020
 - **Duration:** 4 days
 - **Participants receive:**
 - PMP®-certified instruction
 - Comprehensive Participant Guide
 - 28 PDUs (Technical: 15 Leadership: 8 Strategic: 5)
 - Portfolio Management templates
