FOR IMMEDIATE RELEASE

CVR/IT Consulting LLC announces release of a new Business Analysis course
The course, ***Business Analysis: Concepts, Tools and Techniques***, is now available for both onsite delivery and license to qualified training providers.

Raleigh, NC April 4, 2016 – Available immediately, CVR/IT Consulting LLC announces a new Business Analysis course, Business Analysis: Concepts, Tools and Techniques. The course is available for onsite delivery as well as license to qualified training providers for delivery by their own instructors. Full details on the license are available at Coureware Express®.

Business Analysis: Concepts, Tools and Techniques includes a wide range of topics of interest to the Business Analyst and other project professionals, including:

- The value of Business Analysis
- Roles of the Business Analyst
- BA Competencies
- Enterprise Analysis
- Business Process Analysis
- Types of project requirements
- Planning for the requirements engagement

- Requirements Elicitation
- Verifying and Validating Requirements
- Requirements management
- Solution validation
- Effective stakeholder communication
- Post-Project Solution Assessment

The course is fully consistent with both the BABOK® Guide and PMI®'s Practice Guide, and discusses BA activities in both traditional and agile project environments. Full course information and a free pdf download are available.

About CVR/IT Consulting LLC

CVR/IT Consulting LLC is a Project Services and Training company located in the greater metropolitan area of Raleigh, NC. The company provides formal professional consultation in all matters related to Project Management and Business Analysis, as well as training, PM practice assessment, and guidance in Project Portfolio Management. The company's curriculum of high quality courseware for Project Professionals is available for license by qualified training providers. Dr. Gary J. Evans, author of the courseware, brings over two decades of project management and business analysis experience to development of the company's extensive curriculum. He is principal manager of the company, a certified Project Management Professional (PMP®) and past officer of the North Carolina chapter of the Project Management Institute®.
